ATTACHMENTS, INC.

Log Splitter

FEATURES

- Heavy-duty I-beam construction
- Operatable by one person
- Up to 18.5 tons of splitting force
- Self-supporting foot rest
- Two configuration splitting - vertical and horizontal
- Remote valve for operation outside of skid steer
- Provides mobility in tight and remote areas

Lickety-Split...

The Log Splitter splits through large and odd-shaped logs in seconds, reducing the amount of back-breaking lifting and loading that comes with other log splitters. Split cords of wood in a matter of minutes... not hours! This tool is great for contractors, arborists, rental operators, and farm use. The Log Splitter will deliver up to 18.5 tons of force to its splitting wedge, making hard work easy.
