AUGERTORQUE EARTHMOVING ATTACHMENTS

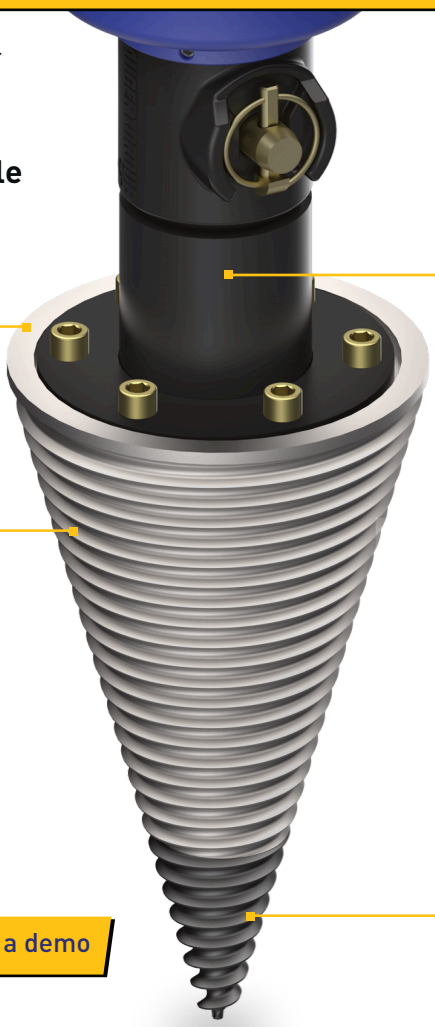

LOG SPLITTER

CONVERT YOUR EARTH DRILL INTO A HANDY LOG SPLITTER

It's quick and efficient. The Auger Torque Log Splitter makes light work of processing and recycling those fallen trees into manageable pieces, ready for recycling.

HUB ADAPTORS
Multiple hub adaptors available for securely fixing the Log Splitter to your existing Earth Drill.

CONICAL PROFILE
Theconical shapequickly works its way through, splitting the timber.

SELF GUIDING
The self-guiding threaded body engages with the timber, drawing the Log Splitter into the log.

NO MAXIMUM LOG LENGTH
TheLog Splitter can berepositioned to continue the split along the whole length of the log.

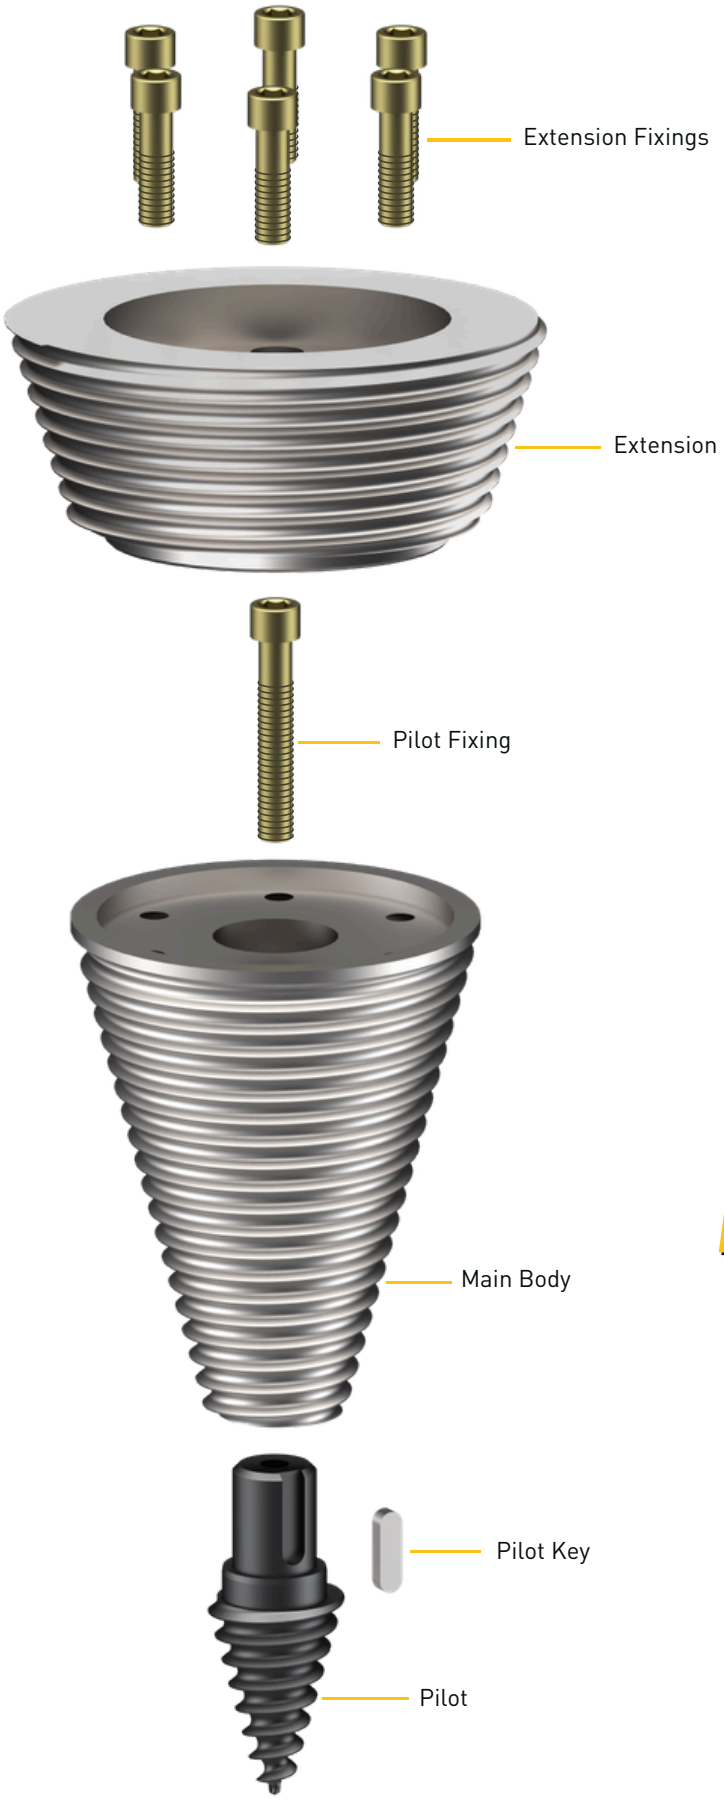

LOG SPLITTER EXTENSION
Push the LogSplitterfurtherinto larger logs for a cleaner break.
The exagerrated sidewall angle helps to further separate the split timber.
(utilises the same hub adaptor)

HARDENED STEEL PILOT
Offering amuch higherresistance to general wear and tear
